

An invitation to the first European

CRYPTO-INFECTIONS CONFERENCE

THE SCIENCE BEHIND LYME DISEASE AND CO-INFECTIONS

Friday 31st May to Saturday 1st June 2019

Pillar Room, Rotunda Hospital, Dublin, Ireland

OUR MISSION

Crypto-infections, which include tick-borne bacterial pathogens and others, are well recognised as a significant burden of disease in both human and animal hosts.

However, much remains to be done to further diagnose, understand the underlying pathogenesis, and optimally treat these infections.

This conference will bring together a wide range of scientists, both in human and veterinary medicine and in other disciplines dealing with these infections, to share their current knowledge of these infections and to develop a 'blueprint' to progress our study of these infections.

CONFERENCE DETAILS

Location	Pillar Room, Rotunda Hospital, Dublin, Ireland	
Date	Friday 31 st May	Saturday 1 st June
Time	13:00 to 18:25	08:00 to 16:00
